

## TEXTURED MELAMINE, ALL ABOUT THE TOUCH!

### The Future of Melamine is now here in South Texas Style that you can See, Touch and Feel!

**Roddis Lumber and Stevens Melamine bring you Artika and Rain!  
Great for Commercial and Residential Cabinets, Casework, and Walls!**

Stevens Melamine is the industry innovator in textured melamine. You might have seen products such as this coming from Europe, but now Stevens is producing sophisticated melamine colors with durable defined textures right here in the United States!

Roddis Lumber and Veneer is proud to be the Exclusive Distributor of Stevens Melamine here in South Texas. Roddis Lumber has been a family owned and operated distributor of panel products since 1922. We are excited to start our 90<sup>th</sup> year in business with this exciting new product.

**Architects, Specifiers, & Designers:** Call us at Roddis Lumber and ask us how these new products will help you achieve a great deal of satisfaction for your commercial customer through these new inspiring colors and finishes. These new products will help your customer set themselves apart from their competition, at the same time greatly reducing product and labor cost when compared to the use of plastic laminate with a similar but less pleasing look.

Roddis will be stocking a number of different colors in the New Artika and Rain Finishes. These finishes will be available on  $\frac{3}{4}$ " 5' X 8' panels with a particle board core. Roddis will also have the textured edgebanding to match the colors that we stock. As a distributor of Stevens Melamine we will have access to all the colors they offer as well as MDF core.

### **LEED PROJECTS, THERE EVERYWHERE!**

**Have LEED projects and concerned about Air Quality?**

**Roddis has been a leader in providing GREEN wood products for years now, and Stevens Melamine is no exception.**

**The Artika and Rain finishes are available on FSC and NAUF PB, or MDF core.**

**Stevens and Roddis are FSC certified and available to answer any questions you might have on LEED products.**

Here are some Possibilities!

The pictures don't do them justice!

Please contact us and we would be happy to meet with you and show you a sample box!

You can also order your own sample box by following this link:
